SESSION ETIQUETTE:

- All skaters and coaches MUST leave the ice surface immediately upon the announcement for the commencement of the floods. Courtesy: Courtesy is first and foremost. It is essential to respect the rights of other skaters and be aware of who is around you at all times. Right of Way: First priority is given to skaters who are skating to their solo or dance music. Second priority is given to skaters in a group lesson. Give these skaters the right of way at all times. Skaters with the right of way must also remember to keep an alert eye open to avoid collisions and may respectfully remind others of right of way (e.g. "excuse me").
- Spins should be performed at the centre of the ice surface, and jumps should be at the ends and in the corners. Do not spend most of your time in the corners. Skaters who are practicing the Lutz may not see you as they enter their jump.
- If you fall down, get up as quickly as possible. If someone falls and does not get up on their own, do not move them. Get a coach to assess the injured skater. In the meantime, have someone stand "guard" over them to make sure other skaters avoid collisions with them. When you are practicing elements like camel spins and back spirals be especially aware of the danger your exposed blade poses to other skaters.
- Take a good look at your expected "space" before you start the element, and do not proceed with the element if it looks like you could cause a problem.
- Don't stand around on the ice to "chitchat". You interfere with and/or present a hazard to other skaters, and you are wasting your practice time. Skaters are expected to be skating at all times while on the ice. Wearing earbuds/headphones is not permitted while on the ice.
